PROFESSIONAL SUMMARY

Operations and business operations professional with approximately eight years of experience across international supply chain and logistics, quality leadership, manufacturing, engineering, executive reporting, finance administration and process improvement. Strongest evidence includes approximately GBP 520,000 in annual logistics savings, returns reduction from about 12% to 4% by CBM, measurable manufacturing quality improvements, and leadership systems including a 19-KPI scorecard and approximately 10 SOPs. Combines hands-on operational judgement, people leadership, data analysis and commercial coordination with practical business-systems and developing automation capability.

SELECTED IMPACT HIGHLIGHTS

- Delivered approximately GBP 520,000 in annual logistics savings at Rattan Direct: about GBP 400,000 through warehouse/3PL redesign and GBP 120,000 through final-mile optimisation.
- Reduced returns from approximately 12% to 4% of CBM through return-cause analysis, supplier corrective action, packaging improvement, last-mile reviews and reverse-logistics controls.
- Led recovery of a time-critical movement affecting approximately 10 inbound containers, sourcing alternate capacity and moving all affected containers within available free time to avoid demurrage exposure.
- Improved manufacturing quality at Tile & Carpet Centre: tank rejection approximately 5% to 2%, pipe rejection 8% to 4%, and customer complaints 10% to 5%.
- Designed a 19-KPI leadership scorecard and approximately 10 SOPs at Optimise Outsourcing to strengthen visibility, accountability and cross-functional execution.

CORE SKILLS & COMPETENCIES

- Operations & Business Operations - KPI governance, operating rhythms, SOPs, executive reporting, issue resolution, accountability and cross-functional execution.
- Supply Chain & Logistics - international freight, demand/S&OP, container planning, 3PL warehousing, inventory, dispatch, final mile, reverse logistics and supplier coordination.
- Quality & Continuous Improvement - CAPA/RCA, Pareto analysis, supplier and production quality, Control Plans, PFMEA, SPC/MSA, complaints and compliance systems.
- Commercial & Cost Management - provider benchmarking, contract/rate negotiation, payment terms, SLAs, logistics cost analysis, cash-flow awareness and spend prioritisation.
- Leadership & Stakeholder Management - direct team leadership, coaching, performance reviews, supplier/customer escalation and distributed UK-China coordination.
- Data, Systems & Technology - advanced operational Excel, Power BI, OrderWise ERP, WMS environments, SAP PM, Microsoft 365/SharePoint and practical AI-enabled workflow improvement.

PROFESSIONAL EXPERIENCE

Optimise Outsourcing | Oct 2025 - 2026

Operations Manager & EOS Integrator

- Led business-wide operating cadence as EOS Integrator, translating leadership priorities into departmental execution through Level 10/SLT meetings, quarterly Rocks, scorecards, issue resolution and accountability follow-through.
- Designed a 19-KPI leadership scorecard covering customer, workforce, recruitment and commercial measures; integrated the scorecard into monthly and quarterly management reviews.
- Created approximately 10 SOPs across core processes including billing/direct debit, recruitment and tool approval, improving process clarity and ownership.
- Administered operational finance processes in Xero and GoCardless, including customer setup, invoicing, reconciliation support, VAT workflow, direct-debit processes and cash-flow monitoring.
- Modelled a cash-flow risk where month-end could fall to approximately negative GBP 2,000; moving agreed direct-debit collection timing about four days earlier improved the relevant 13-week outlook to above GBP 10,000 without borrowing.
- Owned practical business-technology administration across Microsoft 365, Teams/SharePoint, user access/licensing/MFA, shared mailboxes, SaaS renewals, IT-service triage, connectivity/vendor coordination and security-tool administration.
- Built and supported AI-enabled workflow improvements using Make.com, Microsoft Graph/SharePoint/Teams and LLM tools for meeting reporting, Daily Huddle summaries and recurring management information.

Supply Chain, Quality Control & Technical Manager

- Led end-to-end international supply-chain activity for a UK e-commerce business of approximately GBP 8 million annual revenue, covering factories, freight, 3PL warehousing, inbound planning, inventory, dispatch, final mile, reverse logistics, quality and warranty decisions.
- Managed five formal direct reports across China quality coordination, demand planning, dispatch administration, supply-chain administration and returns/reverse logistics; two China inspectors reported through the China Quality Office Manager.
- Delivered approximately GBP 400,000 annual warehouse/3PL savings by benchmarking alternatives, analysing historical cost structures, negotiating commercial terms and transitioning to a more efficient logistics model.
- Delivered approximately GBP 120,000 annual final-mile savings through carrier and cost-structure optimisation, bringing total verified annual logistics savings to approximately GBP 520,000.
- Led the Denholm-to-ArrowXL warehouse migration involving roughly 30 40-ft-container-equivalent loads; reset an initially unworkable transfer cadence and completed the migration through weekly control and escalation.
- Owned demand and S&OP-style planning trade-offs across prior-year demand, marketing plans, warehouse stock, stock at sea, MOQ, storage capacity, cash, backorders and container timing; annual throughput was roughly 6,000-7,000 CBM with peak inbound around 60 containers in a month.
- Reduced returns from approximately 12% to 4% by CBM using Pareto analysis, supplier/packaging corrective action, delivery-quality reviews and structured reverse logistics.
- Negotiated and signed 3PL/service agreements covering rates, payment terms, SLAs, storage, picking/unloading, OTIF expectations, service response and operational volumes.
- Used OrderWise ERP, WMS environments, eDesk, Excel and Power BI to manage purchasing/inventory information, operational reporting, shipment planning and performance visibility.

Tile & Carpet Centre | Apr 2021 - Nov 2022

Quality Team Lead

- Led six quality inspectors across manufacturing quality, customer complaints, corrective action, KEBS compliance and field-service quality; held authority to stop production, reject product/raw material, require rework and block dispatch.
- Reduced tank rejection from approximately 5% to 2% and pipe rejection from approximately 8% to 4% using quality-at-source controls, Pareto analysis, process checks and detailed rejection records.
- Reduced customer complaints from approximately 10% to 5% over roughly one year and cut monthly technician field-service cost from approximately KES 100,000 to KES 50,000 through route planning, issue prevention and better service coordination.
- Maintained KEBS compliance documentation, handled non-conformities, engaged auditors and supported compliance for new-product introductions.

Auto Springs East Africa PLC | Jul 2020 - Apr 2021

Quality Control Engineer

- Worked in automotive manufacturing quality using APQP, PPAP, PFMEA/FMEA, Control Plans, MSA and SPC across production and customer-quality requirements.
- Reduced U-bolt rejection from approximately 4% to 2% through root-cause analysis, forming/process controls and checking fixtures.
- Performed production and incoming/supplier inspection, NCR/CAPA, customer complaint response, quarantine/stop authority and ISO 9001 documentation support.

Coca-Cola Beverages Africa | Nov 2018 - Jul 2020

Electrical Engineer

- Supported production and utilities across two RGB lines, SACMI plastics/preform equipment and plant utilities, including preventive/reactive maintenance, start-ups, shutdowns and troubleshooting.
- Used SAP PM for maintenance notifications/work orders, preventive schedules, job completion, spares and asset history; participated in daily reviews of downtime, MTTR and MTBF.
- Worked within LOTO, PPE, hazard-control and 5S requirements while coordinating maintenance and specialist/vendor support.

EDUCATION

Bachelor of Science in Control and Instrumentation | Jomo Kenyatta University of Agriculture and Technology (JKUAT)

Second Class Honours (Lower Division) | Awarded 30 November 2018
